

## NOT FOR PROFIT ORGANISATIONS

At Whittlebury Park Conference and Training Centre, Hotel and Spa, we think it is important to choose a venue dedicated to providing a quality conference product that will complement and enhance the objectives of your event.

As a dedicated Conference and Events venue, our primary function is to offer you our expertise and experience when planning an event. To ensure that your objectives are met, we have a flexible approach to every aspect of the event planning process.

**Flexible Cancellation Terms** - It's often difficult to pin point exactly how many delegates will attend an event, especially when it's open to a large membership. To help avoid un-necessary cancellation charges, we allow for a 10% reduction on delegate numbers two weeks prior to arrival. This means your numbers can fluctuate without incurring additional cost.

**Flexible Payment Terms** - We will work with you to ensure payment for your event fits with your financial situation and minimise the risk of incurring hefty cancellation fees.

**No rigid packages or pricing** - Budgets can sometimes be limited, which is why we don't have fixed rates and packages for NfP organisations. We want to understand your objectives and budget so we can provide the right solution at the right price.

**An experienced NfP events team** - We have a dedicated Account Manager and Conference Co-ordinator, who specialise in NfP events bookings and conferences. We are here to assist with all your queries or for any assistance at any time from point of enquiry to departure after the event.
